

MCN Listserv and E-Mail Services

Last Updated Thursday, 05 November 2009

MCN offers Listservs and e-mail services to fit every need. Whether you need a single e-mail box for personal use or a large number of boxes for your business or organization, MCN can take care of your e-mail needs. Extra e-mail boxes are bundled with many MCN services including high use dialup, DSL, ISDN, and cable Internet service. Customers without those rates can purchase an e-mail box for \$2.50 per month. Bulk e-mail pricing is available by calling the MCN office at 937-1444 or (800)796-3896.

NEW! MCN Spam Control, Powered by Proofpoint:MCN has partnered with Proofpoint to provide spam and virus control services for our customers. We have set up an MCN Spam Control information Page with screenshots, product information, and an FAQ (Frequently Asked Questions)

MCN has now increased our standard mailbox size from 25 megabytes to 250 megabytes. Additional e-mail storage can be purchased for e-mail storage.

IMAP: Although we do not encourage IMAP, we do support it. IMAP and webmail users should note that any files left in the trash folder more than two weeks will be deleted.

Autoresponders/Vacation Away Messages can be set up on your own, free of charge. Go to our Autoresponder Set-Up Instructions page to learn how to do this.

Listservs: MCN provides listservs of all types. Please visit our Listserv Overview Page for more information: including Public Listerv Guidelines and Subscription/Un-Subscription links.

How to turn on Password Authentication in your Email Program

For added security we need all our customers to turn on outgoing authentication in their email programs.

For instructions on how to do this in whatever email program you're using please click on the following link:
