

MCN/Central Valley Cable Internet Service

Last Updated Wednesday, 04 March 2009

Cable Internet Service on the South Coast is Now Available

MCN and Central Valley Cable have partnered to bring Cable Internet Access Service to the South Coast.

The Internet service is available in the communities of Gualala, Anchor Bay and The Sea Ranch. The Service provides fast, reliable Internet access through the television cable serving your home. It includes unlimited Internet access, 3 free e-mail addresses, and 25 hours of use each month of MCN's analog modem service for travel or emergencies.

In order to use the High Speed Cable Internet Access Service, you will need To Call the CVC office for pricing * and info.

*Additional trench work costs may be incurred for residences that do not have a viable conduit with drop in place from street to residence.

** One Way Cable Internet service is configured to provide an upstream dialup connection to MCN as the host ISP, and a downstream cable connection from MCN through CVC to your computer.
To sign up for service call CENTRAL VALLEY CABLE at 707-884-4111
